The care contract must be terminated in written form in compliance with the 3-month notice period. A termination of the signed care contract can be made from the date of entry with a 3-month notice period at the end of the month.

A reduction of the childcare services can take place in compliance with the 3-month notice period of termination at the end of the month. Only current care contracts can be terminated or reduced.

For children entering the kindergarten, the childcare contract can be terminated on any day of august, with a 3-month notice period, instead of 31th of July. This makes it possible to bridge the summer holiday time in August until the kids enter the kindergarten.
